- **NETWORKING & SECURITY:** TCP/IP, DNS/DHCP, Network Security Groups (NSGs), Virtualization, Active Directory, Enterprise security compliance.
- **CORE COMPETENCIES:** Technical communication, Process optimization, Problem-solving, Technical Documentation, Vendor coordination (Microsoft, Apple, Dell, Lenovo), Quality Assurance.

## Work Experience

---

### *Endpoint Configuration Analyst II*

Chick-Fil-A Corporate Support Center, Atlanta, GA

November 2024 - Present

#### **Assigned to Chick-Fil-A Inc - Contract**

- Managed enterprise device lifecycle for 4000 endpoints across hybrid Microsoft/Apple infrastructure integrated with Intune, Microsoft Autopilot, Workspace One, SCCM, and Azure AD/Entra ID
- Executed command-line tools and PowerShell for system diagnostics, configuration management, and troubleshooting
- Participated in large-scale device deployments for new hire onboarding and seasonal workforce initiatives
- Carried out ServiceNow ITSM operations, including processing incidents, build requests and device stock management
- Coordinated warranty claims and vendor relationships with Microsoft, Apple, Dell, and Lenovo, managing repairs, exchanges and RMA processes
- Collaborated with endpoint engineering teams on MDM integration challenges and security compliance to improve deployment rates
- Implemented rigorous QA protocols for device builds, achieving consistent enterprise compliance standards

### ***Bilingual Payment Systems Analyst***

CDE Inc., Marietta, GA

January 2024 - November 2024

- Provided Level 1 & 2 remote technical support for EBT, WIC, and POS payment processing systems using their proprietary MDM remote access platforms and system diagnostic tools across NFC-enabled terminals
- Managed Linux-based terminal software deployments and system integrations between payment platforms and Fiserv/Conduent processing networks
- Conducted merchant account analysis and payout reconciliation to optimize discount rates and resolve settlement discrepancies
- Ensured PCI DSS compliance through security audits, terminal security protocols, and incident response for lost/stolen device reporting
- Coordinated equipment procurement and deployment through their in-house hybrid CRM/Ticketing systems while maintaining SLA compliance for merchant operations

### ***Bilingual Technical Support Analyst***

Assurant, Atlanta, GA

June 2022 - January 2024

- Provided technical support for 50+ daily T-Mobile business accounts across multi-platform environments (Windows, macOS, iOS, Android)
- Administered Microsoft 365 suite troubleshooting including Teams, Outlook, and collaborative platforms for business users
- Executed network connectivity analysis and resolution for Wi-Fi, mobile hotspots, and connected devices
- Utilized remote access technologies (LogMeIn) and Salesforce CRM for comprehensive case documentation and follow-up processes
- Delivered security threat education and incident response guidance while maintaining 95%+ customer satisfaction in high-volume environment

### ***Field Repair Technician for Device Insurance Claims***

Asurion, Atlanta, GA

October 2019 - June 2022

- Completed 1000+ certified mobile device repairs across multiple manufacturers (Apple, Samsung, Google, Motorola)
- Generated protection plan revenue through consultative selling of Asurion Home+ coverage solutions
- Built customer relationships and achieved consistent upselling rates by leveraging technical expertise to demonstrate value proposition and ROI
- Managed POS system operations, transaction processing, and customer onboarding for protection plan sales
- Mentored new technicians on repair standards and consultative selling techniques to maximize revenue generation

## **Education**\_\_\_\_\_

### **SAE Institute of Technology**

#### ***Diploma - Audio Engineering***

2012-2013
